ELLIOT WESTBROOK

Principal Product Designer

hello@example.com · example.com · Independent, by design.

Product design leader with 12+ years helping teams make complex software clearer and more useful. Enterprise platforms, B2B SaaS, and 0 → 1 products. A practical partner from the first research conversation through a coherent system and the details that ship.

EXPERIENCE

Northstar Software

Principal, AI Product Design — Mar 2025 — Present

Leading design across a family of specialist software products. Shared interaction patterns, working prototypes, and thoughtful use of intelligent assistance in complex, real workflows.

Fieldnotes Studio

Independent Product Designer — Jan 2023 — Present

A small product design practice for teams working through an important question. Strategy, research, interface design, and close collaboration with engineering. Example projects: Verdant, Tally, Margin, and Hearth.

Threadspace

Founder & Designer — Sep 2026 — Present

Exploring a family of local-first tools for notes, projects, and useful connections. Product concept, interaction model, original identity, and working prototypes.

Parallel

Design Director — Feb 2020 — Dec 2022

Grew a product design team from eight to twenty-two. Led enterprise engagements, built a practical research practice, and helped designers grow into confident leads.

SELECTED WORK & PRACTICE

Elliot Westbrook / Fieldnotes Studio

A FEW EXAMPLE PROJECTS

Verdant

A grower-led marketplace for plant people. Product strategy, research, original visual identity, and a reusable interface system.

Tally

An incremental rebuild of a financial close workspace, keeping critical workflows familiar while modernizing the system underneath them.

Margin

An enterprise knowledge workspace with explicit source boundaries, adjacent citations, and a practical path to checking an answer.

Hearth Collective

A member portal organized around real needs rather than internal departments. Accessible, multilingual service patterns.

Soundcheck

A native research tool for multi-device studies, synchronized observation, and a calmer moderation workflow.

EARLIER ROLES

Common Practice — Lead Product Designer · 2018–2020

Sundial — Senior Product Designer · 2016–2018

Small Hours — Product Designer · 2014–2016
